

3kStatic://
WARKRMNL

DPR165

Described as 'eclectic eccentrics' by Sony - where the band's latest album *Evolver* was issued as the first fully original album also including a complete sound library - **3kStatic** return with the second single taken from *Evolver*. 'Warkrmnl' continues the band's politically-charged efforts. Since 2006, virtually all **3kStatic** tracks have charted at various retailers, securing #1 spots on iTunes, eMusic, Lala, AudioJelly, Play.com, Juno, We7 and elsewhere.
